Date

IDMA has pleasure in announcing the much awaited  
**22<sup>nd</sup> IDMA – APA Pharmaceutical Analysts' Convention (PAC) 2023**  
**Along with EDQM (European Directorate for the**  
**Quality of Medicines & HealthCare)**

**On**

**Friday, 24<sup>th</sup> February and Saturday, 25<sup>th</sup> February, 2023**

*Please await further details*

### HIGHLIGHTS

- ★ Initiative to stimulate companies in the field of pharmaceuticals to register their product in SFDA : Saudi Arabia (Page No. 4)
- ★ IDMA Meeting with Mr Pravin Darade (IAS), Member Secretary, MPCB and Principal Secretary, Environment Department, Government of Maharashtra (Page No. 29)
- ★ WHO and EU renew partnership for Universal Health Coverage (Page No. 31)

# DIVERSITY THAT DELIVERS. THAT'S OUR DEFINITION OF **VERSATILITY.**

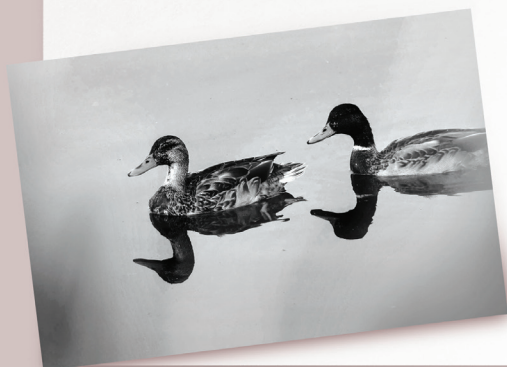

## Dear Partner,

As you know, Signet is India's largest distributor of excipients. This wouldn't have been possible without our diversified partnerships with companies like Imerys, Venator and Humens.

Imerys is the global leader in pharmaceutical talc, Venator is the finest manufacturer of synthetic iron oxides, while Humens is a renowned producer of sodium bicarbonates and sodium carbonates.

It is through collaborating with the best in their respective fields that we are able to provide our customers such a wide variety of high-quality products and services.

## Initiative to stimulate companies in the field of pharmaceuticals to register their product in SFDA : Saudi Arabia

Dear Member,

Saudi Food and Drugs Authority (SFDA), Kingdom of Saudi Arabia is inviting Indian Drugs & Pharmaceuticals manufacturers to participate in achieving drug security in the Kingdom of Saudi Arabia.

There are number of pharmaceutical products that are not present in the Kingdom despite the local market's requirement for them. The authority has prepared the list and prepared a package of incentives and facilities, and they are pleased to invite the Indian Drug Manufacturers to apply for the registration of the drugs mentioned in the attached list according to the mechanism mentioned in the list.

As you are aware that due to technical or regulatory issues, availability of inputs in manufacturing faces

problems in the Kingdom. Executive Directorate for Regulatory Affairs in Drugs department of SFDA will be happy to resolve these issues in consultation with the respective company.

We request interested members to fill out the attached form given in the excel sheet along with the list of products that they may like to register in the Kingdom and also specify the support required by their company.

The email could be sent to: [sdr.drug@sfd.gov.sa](mailto:sdr.drug@sfd.gov.sa) .

Thanks and regards,

Daara B Patel  
Secretary- General

## **Representations against ceiling prices fixed by NPPA under revised schedule - (NLEM, 2022) of DPCO, 2013**

**Office Memorandum 12(90)/2022, dated 25<sup>th</sup> November 2022**

1. NPPA is in the process of fixing the ceiling prices of the formulations listed in NLEM, 2022 (revised Schedule-I of DPCO, 2013) considering the Pharmatrac database of July, 2022. The draft working sheets for fixation of ceiling prices of formulations will be uploaded on NPPA website for 10 working days to invite comments, if any.
2. Companies may submit their representations, if any to NPPA on the draft working sheets supported by their Price to Retailer (PTR) and Moving Annual Turnover (MAT) data along with supporting documents like

copies of invoices to retailer and samples of July, 2022 in order to take necessary action in this regard. Such representations should reach NPPA within 10 working days of the upload of draft worksheet.

This issued with the approval of competent Authority.

Yours faithfully,

*Mahaveer Saini, Deputy Director, National Pharmaceuticals Pricing Authority, Ministry of Chemicals & Fertilizers, Department of Pharmaceuticals, New Delhi.*

### NATIONAL NEWS

#### **IDMA hails Maharashtra govt's initiative to help revive bulk drugs industry in the state**

The Indian Drug Manufacturers' Association (IDMA) has hailed Maharashtra government's initiative to help revive the bulk drugs industry in Maharashtra by proposing to the Centre to set up a bulk drugs park in Raigad district of the state.

This comes close on the heels of the Central Government giving 'in-principle' approval to the proposals for bulk drug parks in Gujarat, Himachal Pradesh and Andhra Pradesh. The Union ministry of chemicals and fertilizers is also currently keeping an oversight on the progress of bulk drug parks that are being set up in these three states.

"It is a great initiative and we wholeheartedly support the Maharashtra government to help revive the bulk drugs industry in Maharashtra as the state was earlier leading in bulk drugs production. The bulk drugs park in Maharashtra will also be a major boost to around 300 member pharma companies including SMEs which IDMA represents in the state of Maharashtra," according to Daara Patel, secretary general, IDMA.

"We are today dependent on China for key pharmaceutical ingredients and setting up a bulk drug park in the state will help companies in India to avail common infrastructure facilities. Many big pharma companies will invest in Maharashtra if they get a conducive business environment in the form of a bulk drug park," he further added.

IDMA also recently got recommendations from Maharashtra Food and Drug Administration (FDA) for developing a bulk drug park in Raigad district. As per the recommendations, the Maharashtra government plans to set up a bulk drugs park in Raigad district with an initial investment of Rs. 2,442 crore under the Scheme for "Promotion of Bulk Drug Parks" of the department of pharmaceuticals.

Under the scheme, the Central government is currently offering a financial grant-in-aid of Rs. 1,000 crore to develop common infrastructure facilities in the bulk drug park. The remaining Rs. 1,442 crore will be borne by the Maharashtra government, as per the proposal of the state government.

"Maharashtra government has requested the Department of Pharmaceuticals (DoP) to develop a bulk

drugs park in the state in order to make Maharashtra self-sufficient in bulk drugs,” informed D R Gahane, joint commissioner, Maharashtra FDA.

Maharashtra attracted about 30% of the FDI in the pharmaceuticals sector in the past one decade and accounts for about 20% of India’s exports.

The Indian pharmaceutical industry, the third largest in the world by volume, is dependent on imports of active pharmaceutical ingredients (APIs) to produce medicines. The import dependence is as high as 100% in certain specific APIs. It also leads in vaccine production and is the only state with major pharma clusters in Mumbai, Tarapur, Pune, Nasik and Aurangabad.

The basic amenities in a bulk drug park includes a common effluent treatment plant, solid waste management, storm water drains, a common solvent storage system, and a safety and hazardous operations audit centre.

## **WHO and EU renew partnership for Universal Health Coverage**

Geneva: The World Health Organization (WHO) and the European Commission yesterday agreed on reinforcing a decade-long collaboration to accelerate the achievement of universal health coverage. The letter of intent foresees an additional contribution from the European Union (EU) of ₹125 million for the continuation of WHO’s assistance to its Member States over the next five years, implemented through the Universal Health Coverage Partnership (UHC Partnership). This will focus on strengthening health systems to make them more resilient and responsive to natural, climate or human-made disasters.

“Health is a fundamental human right, and universal health coverage is critical for achieving that right. The Covid-19 pandemic has been devastating evidence that Universal Health Coverage is the foundation to resilience and sustainable development for all. That’s true for individuals and families confronting a life-threatening illness, and it’s true for countries – and the whole world – in the face of epidemics and pandemics. I am grateful to the European Union for its strong leadership and longstanding

commitment to helping the world achieve Universal Health Coverage,” said Dr Tedros Adhanom Ghebreyesus, WHO Director-General.

The partnership with WHO is a key deliverable of the new EU Global Health Strategy adopted by the European Commission yesterday. Strengthening health systems and advancing universal health coverage worldwide is one of the three key priorities of the Strategy.

“I am delighted to sign today with Dr Tedros a new contribution of ₹125 million EU contribution for the period 2023–2027 to our Universal Health Coverage Partnership with the World Health Organization. As Covid-19 dramatically highlighted, resilient health systems and equitable access to health care are key to ensuring individual well-being and identifying and managing public health threats effectively,” said Commissioner for International Partnerships Jutta Urpilainen.

The UHC Partnership was established by WHO in 2011 with support from the European Commission to help catalyze action at country level to make health for all a reality. From supporting seven countries in its inception phase, the initiative has seen steady expansion, with the European Commission remaining as a leading contributor.

With consolidated funding from eight donors, 130 health policy advisors have so far been deployed across 120 WHO country offices covering more than 4 billion people. Health policy advisors play a crucial role in bringing WHO’s technical expertise in fostering policy dialogue, national health planning, health security, addressing noncommunicable diseases and more. The Partnership also provides funding for catalytic projects and helps engage partners to enable effective development cooperation.

Today, the UHC Partnership is regarded as one of WHO’s largest platforms for international cooperation on Universal Health Coverage and primary health care. As a source of mostly flexible funding, it supports the Organization in delivering assistance that is responsive to evolving priorities, including in the context of health emergencies such as disease outbreaks and conflict.

The Complete Excipients Company

# The world needs you to succeed.

## Let us help you get there faster, and safely.

Only a few ever reach the summit – those who possess the right combination of intelligence, resilience, bravery and respect – backed up by a team of experienced and expert partners.

As the challenge to deliver COVID-19 related vaccines and treatments continues, you can count on Aptar Pharma to help you achieve your goal.

As a global market leader, we can offer significant capacity for a wide range of proven injectable closure components designed to meet the specific needs of your COVID-19 developments.

Our proven multi-dose vial stoppers can reliably accommodate up to 20 piercings, enabling HCPs to vaccinate and treat more people more efficiently.

Aptar Pharma. Enabling the rapid deployment of your vaccine worldwide.

To reach the summit faster, and with less risk, contact **Estelle Verger**, Business Development Senior Manager, Aptar Pharma, at [estelle.verger@aptar.com](mailto:estelle.verger@aptar.com).

Delivering solutions, shaping the future.
